DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 21st February 1934.

Summary.—During the week light to moderate rain fell over the greater part of the province. It has facilitated field operations for autumn crops. Cutting andpressing of sugarcane and harvesting of spring crops are progressing. Recent rain with hail-storm has caused damage to tobacco and other *rabi* crops, especially in some North Bengal districts. No report of test relief works has been received from 24-Parganas. The average price of common rice for the province has risen by about 0·79 per cent. as compared with that of the previous week.

PART IV

Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 691L.C.—5th March, 1934.—The following report of the Select Committee on the Bengal Alluvial Lands (Amendment) Bill, 1934, with the Bill as amended by the Committee, is hereby published for general information.

Report of the Select Committee on the Bengal Alluvial Lands (Amendment) Bill, 1934.

We, the members of the Select Committee of the Bengal Legislative Council to which the Bengal Alluvial Lands (Amendment) Bill, 1933, was referred by a motion carried in the Bengal Legislative Council on the 9th January, 1934, have the honour to submit this our report with the Bill as amended by us annexed. All matter omitted by the Select Committee has been printed in italics and enclosed in square brackets and all new matter inserted has been underlined.

2. The Bill was published in English in the *Calcutta Gazette*, Extraordinary, of the 6th January, 1934.

3. We do not consider that the Bill has been so altered as to require republication.

4. The changes made in the Bill are as follow :—

Clause 1.—We have altered the figures "1933" to "1934".

Clause 2.—We have amended proposed section 3 (*4*) to the Bengal Alluvial Lands Act, 1920, leaving it to the discretion of the Collectors to order the payment of the net receipts to the persons who, in his opinion, are entitled to the same.

Clause 3.—We have amended the second paragraph of proposed section 4A in order to make the intention more specific.

In the third paragraph we have substituted the words "Map or record-of-rights" for "settlement record" as being more correct.

We have redrafted proposed section 4A(*2*) to make the intention more clear and have also given power to the Collector to exclude from the list of claimants the names of any claimant who fails to supply any of the particulars required under the section.

Clause 4.—The changes made in this clause are mainly of a drafting character.

We have added proposed section 5(*1*)(*d*), making it a duty of the Collector to include in the statements the names of any persons who have filed statements of claims under proposed section 4A and whose names are not included in the list of claimants.

The changes made in clause 4(*4*)(*i*) are consequential on the changes made in clause 4 (*1*).

The change made in clause 4(*4*)(*ii*) is to make the intention more specific [*vide* proposed section 4A (*2*)].

Clause 4 (5).—The alterations made here are to correct certain misprints.

We recommend that the Bill, as amended by us, be passed.

The members of the Select Committee beg to record their profound regret at the sudden death of their late Chairman, the Hon'ble Sir Provash Chunder Mitter, whose great mastery of the subject matter of the Bill was so evident at their meetings. The deep sympathy of the members of the Committee go out to the relatives of the Hon'ble Member in their sad bereavement.

NOTE.—Mr. F. A. Sachse and Mr. G. G. Hooper have since resigned their seats in the Council.

Minute of dissent by Mr. Mukunda Behary Mullick, M. L. C.

I sign this report, subject to the following note of dissent. It will be remembered that I introduced a Bill in the Council in 1933 to amend the Bengal Alluvial Lands Act, 1920. Government assured the Council that they would introduce a Bill of a more comprehensive character and asked me to withdraw my Bill for the time being, and following that assurance, I withdrew my Bill. I regret to observe now that a very important matter mentioned in my Bill regarding the powers of the Civil Courts and the solemnity of their decrees have been practically ignored in this Bill. I mention only a few points in this note, and I reserve the right to bring in all the necessary changes by way of amendments to the Bill, when the motion for its consideration comes up.

Clause 2(1) : proposed sub-section (1a) of section 3.—I do not see any reason to retain the expression "or any portion." It is always desirable in the interest of justice and of the convenience of the parties concerned that one single Collector should have *seisin* of the whole proceeding and that the same subject-matter should not be divided in parts.

At the end of this sub-clause a proviso should be added indicating that in cases where Civil Courts have made their decrees either before any action is taken by the Collector or even during the pendency of a proceeding regarding an alluvial land before the Collector, the same should be respected by the Collector.

Clause 3: proposed section 4A.— It seems to me that the powers proposed to be given to the Collector by authorising him to call for statements specifying grounds are in the nature of superseding the powers of the Civil Courts. In clause 4, sub-clause (*4*) powers are reserved for the Civil Courts to add parties under certain circumstances. And this power of the Civil Courts cannot be taken away by any measure passed by the Provincial Legislature. In that case, detailed examination of the claims of the parties will be of no avail to the Collectors or to the parties concerned. I would therefore suggest that this clause be omitted.

Clause 4(3).—I think to avoid any misapprehension in proposed sub-section (*1a*) of section 5 for the words "plaint" and "determination" the words "petition" and "declaration" should be respectively substituted.

Clause 6(4).—I think this sub-clause suggesting a creation of an Alluvial Lands Dispute fund should be omitted altogether, as I see no reason for the same. My information is that in some districts large sums of money, practically unclaimed, are lying in deposit with the Collector. In case it is so thought desirable, the money kept in deposit and lying unclaimed for a definite period should be made available to the district board as a like provision is made in the Bengal Tenancy (Amendment) Act, 1928 (Ben. Act IV of 1928) with regard to the landlord's fees.

If the land is included in a map or record-of-rights as finally published under Chapter X of the Bengal Tenancy Act, 1885, the claimant shall also mention the particulars of the *khatians* and plot numbers necessary to identify the land in the [*settlement record*] map or record-of-rights. VIII of 1885.

(*2*) On receipt of a statement of claim referred to in sub-section (*1*) the Collector, [*after obtaining from the claimant such further information as he considers necessary,*] shall examine the claim and call for such further particulars, if any, as he considers necessary, and shall, if he is satisfied that the claim is *bona fide*, enter the name of the claimant in the list of claimants. PART VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill* was introduced in the Legislative Assembly on the 24th January, 1934 :—

L. A. BILL NO. 1 OF 1934.

A Bill to continue for a further period the provisions made by certain Acts for the purpose of fostering and developing the Steel Industry and the Wire and Wire Nail Industry in British India.

WHEREAS it is expedient to continue for a further period the provisions made by certain Acts for the purpose of fostering and developing the Steel Industry and the Wire and Wire Nail Industry in British India ; It is hereby enacted as follows :—

Short title.

1. This Act may be called the Steel and Wire Industries Protection (Extending) Act, 1934.

Amendment of sections 2 and 3, Act III of 1927.

2. In sub-section (*3*) of section 2 and in section 3 of the Steel Industry (Protection) Act, 1927, for the words and figures "31st day of March, 1934," the words and figures "31st day of October, 1934," shall be substituted. III of 1927.

Amendment of section 2, Act V of 1932.

3. In sub-section (*2*) of section 2 of the Wire and Wire Nail Industry (Protection) Act, 1932, for the words and figures "31st day of March, 1934" the words and figures "31st day of October, 1934" shall be substituted. V of 1932.

Amendment of Schedule to XXV of 1932.

4. In Item No. 45 and Item No. 46 of the Schedule to the Indian Tariff (Ottawa Trade Agreement) Amendment Act, 1932, for the words and figures "31st day of March, 1934" the words and figures "31st day of October, 1934" shall be substituted. XXV of 1932.

*The Governor General has been pleased to accord the sanction required by section 67 (2) of the Government of India Act.

STATEMENT OF OBJECTS AND REASONS.

The protection afforded to certain manufactures of iron and steel by the Steel Industry (Protection) Act, 1927, as subsequently amended, is due to expire on the 31st March, 1934. Section 3 of this Act requires the Governor General in Council to cause an enquiry to be made not later than the date mentioned above into the question of continued protection to the steel industry. This enquiry has been entrusted to the Tariff Board under the Government of India Resolution No. 260-T. (8)/33 of the 26th August, 1933, with instructions to re-examine, at the same time, the measures of protection afforded to the industry by the Wire and Wire Nail Industry (Protection) Act, 1932, and the Indian Tariff (Ottawa Trade Agreement) Amendment Act, 1932, which are also due to expire on the 31st March, 1934. The enquiry by the Tariff Board is not expected to be completed before April, 1934, and consequently any further protection that it may be necessary to grant to the industry as a result of the enquiry cannot come into operation immediately after the 31st March, 1934, when the protection now enjoyed by the industry will expire. The Government of India consider it desirable that continuity of the protective scheme should be maintained and they are accordingly of opinion that, pending a decision on the question of further protection, if any, to be granted to the industry, the operation of the existing enactments affording protection to the iron and steel industry should be extended for a short period. The Bill accordingly proposes to continue the existing protection granted to the industry by the Steel Industry (Protection) Act, 1927, as subsequently amended, the Wire and Wire Nail Industry (Protection) Act, 1932, and the Indian Tariff (Ottawa Trade Agreement) Amendment Act, 1932, for a further period up to the 31st October, 1934.

The following Bill* was introduced in the Legislative Assembly on the 24th January, 1934 :—

L. A. BILL NO. 2 OF 1934.

A Bill further to extend the operation of the Wheat (Import Duty) Act, 1931.

WHEREAS it is expedient further to extend the operation of the Wheat (Import Duty) Act, 1931 ; It is hereby enacted as follows :— XV of 1931.

Short title. **1.** This Act may be called the Wheat Import Duty (Extending) Act, 1934.

Amendment of section 1, Act XV of 1931. **2.** In sub-section (*3*) of section 1 of the Wheat (Import Duty) Act, 1931, for the figures " 1934 " the figures " 1935 " shall be substituted. XV of 1931.

*The Governor General has been pleased to accord the sanction required by section 67 (2) of the Government of India Act.

STATEMENT OF OBJECTS AND REASONS.

Since the passing of the Wheat Import Duty (Extending) Act, 1933, the Government of India have maintained a careful watch on the wheat position in India and they are satisfied that no such change has yet taken place as would justify the removal of the duty at the end of next March. The Bill, therefore, proposes to extend the life-time of the Wheat (Import Duty) Act, 1931, so as to continue the existing duties on wheat and wheat flour for a further period of one year, *viz.*, up to the 31st March, 1935, while retaining power to reduce or remove them by executive action before that date if circumstances so change as to render the duties excessive or unnecessary.

The following Bill* was introduced in the Legislative Assembly on the 29th January, 1934 :—

L. A. BILL No. 3 OF 1934.

A Bill further to amend the Sea Customs Act, 1878, for a certain purpose.

WHEREAS it is expedient further to amend the Sea Customs Act, 1878, for the purpose hereinafter appearing; It is hereby enacted as follows :— VIII of 1878.

Short title.

1. This Act may be called the Sea Customs (Amendment) Act, 1934.

Insertion of new section 43A in Act VIII of 1878.

2. After section 43 of the Sea Customs Act, 1878, the following section shall be inserted, namely :— VIII of 1878.

Drawback on goods taken into use between importation and re-exportation.

"43A. (*1*) Notwithstanding anything hereinbefore contained, the repayment of duty as drawback in respect of goods which have been taken into use between importation and re-exportation shall be subject to the provisions of the rules made under sub-section (*2*).

(*2*) The Governor General in Council may from time to time, by notification in the Gazette of India, make rules, in respect of goods which have been taken into use between importation and re-exportation,—

(*a*) modifying the amount of duty which shall be repaid as drawback on any such goods or class of such goods, or

(*b*) prohibiting the repayment of duty as drawback on any such goods or class of such goods, or

(*c*) varying the conditions for the grant of drawback on any such goods or class of such goods by restricting the period after importation within which the goods must be re-exported."

* The Governor General has been pleased to accord the sanction required by section 67 (2) of the Government of India Act.

STATEMENT OF OBJECTS AND REASONS.

Under section 42 of the Sea Customs Act, 1878, a drawback of seven-eighths of the customs duty paid on goods on importation is repayable at the time of re-export of the goods subject to certain conditions. This provision was originally intended to apply to merchandise imported for sale in order that goods remaining unsold in this country might be sent for disposal in other markets without the handicap of a tax. In practice, however, the concession is allowed even in respect of goods which have passed into use after import in violation of the ordinary accepted principle that customs duty is a tax on consumption. In many cases—*e. g.*, cars and cinematograph films—the goods spend much or most of their useful life in this country within the period allowed before re-exportation under claim for drawback.

2. The Government of India have long felt that the grant of drawback on used goods was wrong in principle and they have decided that the payment of such drawback should be discontinued except in special cases to be prescribed by rules made in this behalf. The object of this Bill is to amend the Sea Customs Act so as to give effect to this decision. The legislation contemplated by the Bill has become pressing as a result of certain circumstances that have now arisen, *e.g.*, the increasing inducement now afforded by the considerable enhancement in the rates of customs duty in recent years and the demand for prohibition of drawback on exposed cinema films on their re-exportation.

Second Forecast of the Spring Oilseed Crops of Bengal, 1933-34.

(*Note.*—On an average of the five years ending 1931-32, the area under linseed in Bengal has represented some 3·5 per cent. and that under rape and mustard 11·0 per cent. of the total areas under these crops in British India.)

Character of the season.—As indicated in the first forecast, the weather was generally favourable for sowings and for the early period of growth. Subsequent conditions in December and early January proved beneficial to development except in certain districts where drought caused some damage to the crops. On the whole, a satisfactory outturn is expected for the province.

Area sown.—Oilseeds are chiefly grown in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions the cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 860,800 acres this year as against 885,200 acres both in the corresponding and final forecasts of last year.

Outturn.—From the District Officers' estimates, the average outturn of the different oilseed crops for the province works out at 85 per cent. of the normal as against 78 and 77 per cent. reported, respectively, in the corresponding and final forecasts of last year.

The Report of the Board of Revenue on the administration of the Wards, Attached and Trust Estates in the Presidency of Bengal for the year 1339 B.S. (1932-33).

1. At the beginning of the year under report there were 107 estates under the management of the Court of Wards. Owing to the addition of six new estates during the year under review there remained 113 estates at the close of the year.

2. The total current demand due to the estates on account of rent and cesses was Rs. 1,66·34 lakhs and arrear demand Rs. 2,51·88 lakhs. The total sum collected was Rs. 1,36·48 lakhs equal to 32·6 per cent. of the total demand or 85·7 per cent. of the current demand against 35·1 per cent. and 84·0 per cent., respectively, in the preceding year. The heavy outstanding balances were mainly due to bad economic conditions.

3. The total amount of ascertained debts outstanding at the close of the year was Rs. 2,86·65 lakhs against Rs. 2,73·48 lakhs in the preceding year. The increase is due to the assumption of charge of some new estates with heavy debts, to the discovery of fresh liabilities in other estates, to the addition of unpaid interest and to the fact that fresh debts had to be incurred in certain cases owing to poor collections. The principal and the interest repaid or otherwise reduced were Rs. 10,75,935 and Rs. 15,21,108, respectively. In 32 out of 38 estates for which schemes of repayment have been prepared, it has not been possible to reduce the debts to the extent provided in the schemes.

4. The percentage of the cost of management on the current rent and cess demand showed a slight reduction, being 9·4 against 9·5 in the previous year, but the law expenses rose from 9·98 lakhs in 1931-32 to 10·54 lakhs during the year under review.

5. The Governor in Council notices with satisfaction that a sum of Rs. 5·80 lakhs as against a little over Rs. 5 lakhs in the preceding year was spent on education, dispensaries and works of improvement.

6. Owing to the widespread economic distress and to the fall in the price of agricultural produce, collections were as in the previous year poor and in many cases Government revenue was in arrear and general and audit rates remained unpaid.

7. The thanks of the Governor in Council are due to the Board of Revenue for the efficient administration of the estates under the management of the Court of Wards. He also notices with pleasure the work done by the managers mentioned in the report.

Resolution on the Annual Report of the Department of Agriculture, Bengal, for the year 1932-33.

GOVERNMENT OF BENGAL.

DEPARTMENT OF AGRICULTURE AND INDUSTRIES.

Agriculture.

CALCUTTA, THE 2ND MARCH 1934.

RESOLUTION—No. 1162 Agri.

Minister-in-charge: The Hon'ble Nawab K. G. M. Faroqui, Khan Bahadur.

Read—

The Annual Report of the Department of Agriculture, Bengal, for the year 1932-33.

Administration.—Dr. G. P. Hector held charge of the department with effect from the 8th April 1932 when Mr. R. S. Finlow went on leave preparatory to retirement. Mr. K. McLean, Assistant Director of Agriculture, went on leave in November 1932 and was succeeded by Mr. F. Smith, Deputy Director of Agriculture, Eastern Circle. Mr. S. G. Sharangapani, Assistant Economic Botanist, held charge of the office of the Economic Botanist.

2. *General.*—On the whole, the season was satisfactory for winter and spring crops, and fairly favourable for autumn crops, but economic conditions continued to be unsatisfactory and the prices of rice and jute were low. As in previous years propaganda was carried on in the rural areas advising the cultivators to restrict the sowing of jute. Towards the close of the year a committee consisting of official and non-official members with Mr. R. S. Finlow, C.I.E., late Director of Agriculture, Bengal, as Chairman was appointed to investigate the jute problem as affecting this province and to make recommendations.

3. *Research and experiment.*—During the year under review five schemes of agricultural research financed by the Imperial Council of Agricultural Research were in operation. Details of work in connection with these schemes are given in the reports of the Economic Botanist, Agricultural Chemist and the Agricultural Engineer. The scheme for research on rice which has been started on an elaborate scale at the Chinsura and Bankura farms with financial assistance from the Imperial Council and the Empire Marketing Board is of special interest. It is confidently hoped that it will result in the introduction of improved strains of trade rice in western Bengal and will thus stimulate the export of this class of rice which has decreased considerably in recent years.

Schemes for fruit research work at Krishnagar and for investigation into the costs of cane cultivation and rotation crops in certain districts of the province were also sanctioned by the Imperial Council of Agricultural Research.

The Universities of Calcutta and Dacca continued their research work also with grants from the Imperial Council.

4. *Demonstration and propaganda.*—Notwithstanding the limitations imposed by lack of funds satisfactory work was done in the direction of demonstration and propaganda. Wireless talks on agriculture given by departmental officers in Calcutta were an interesting feature of propaganda carried on during the year. These talks which drew attention to some of the important lines along which attempt is being made to improve and develop agriculture in the province were appreciated both by the Press and by the public.

The rapid increase in the number of private farms which form an important link between the departmental farms and the cultivators also furnishes a proof of the utility of the activities of the department in respect of the agricultural development of the country. Noteworthy progress was made during the year in the introduction of departmental varieties of paddy seed which were grown on an area of 9,000 bighas in 228 centres and of which the yield was 15,500 maunds. Among others, union boards and co-operative societies played an important part as the agencies for the multiplication of departmental seeds.

Sugarcane has established its value as a substitute money crop for jute. It is estimated that improved sugarcane is now grown on an

area of 1¼ lakhs of acres. The demand for cuttings of Co. 213 sugarcane has increased: 13 lakhs of cuttings were supplied from Government farms. A survey of sugarcane tracts has shown that compact areas can be found in various parts of the districts of Rangpur, Bogra, Rajshahi, Dinajpur and Malda in the Rajshahi Division; Faridpur, Dacca and Mymensingh in the Dacca Division; Nadia, Jessore, Murshidabad and the 24-Parganas in the Presidency Division; and Burdwan in the Burdwan Division. The supply of cane in the local areas is reported to be sufficient for the establishment of up-to-date sugar factories.

Satisfactory progress has also been made towards the introduction of fodder crops among which Napier grass is spreading rapidly. About 80,000 cuttings of this grass were distributed.

5. *Agricultural education.*—The fourth batch of teachers under training at the Secondary Agricultural School at Dacca during the year in connection with the scheme for agricultural education in high English and middle English schools completed their training in December, 1932. Pending decision as to the future of the scheme no more teachers were admitted nor was there an extension of the scheme. The total number of schools with agricultural classes now in existence is 57 including 14 in which classes were opened in January 1933. About 2,000 boys received training in agriculture—both practical and theoretical—in 42 schools and the total area cultivated by the boys was 141·5 acres. In spite of difficulties the progress appears to have been, on the whole, encouraging. It is also gratifying to note that there has been an improvement in the attitude of the students and their guardians towards the scheme.

The scheme for the training of *bhadralok* youths in practical agriculture at the Faridpur farm was continued. A fourth batch of five youths completed their training during the year and were settled on khas mahal lands. These youths are growing different varieties of departmental crops on their land, but economic and other causes have proved to be a handicap to them.

6. *Agricultural Engineering.*—The attention of the Agricultural Engineer was chiefly devoted to experiments in the crushing of cane and the manufacture of *gur* and sugar. The cane-crushing mill designed by him was further improved with satisfactory results: its capacity was not below 30 maunds of cane per hour while 44 maunds was the maximum, and the maximum extraction rose to 74 per cent. Improvements have also been made in the rab furnace. A power-driven pug mill and an improved type of molasses furnace have also been designed and installed. Over thirty-two open-pan factories were in operation during the past season and three large vacuum pan factories were also under construction during the year.

7. *Sericulture.*—During the year under review the production of disease-free seed cocoons from 11 Government nurseries aggregated 24,617 kahons. The selected rearers sold 24,585 kahons of seed. The sericultural industry in Bengal is undergoing a period of stress owing to continued trade depression and competition from abroad. Unfavourable weather conditions also retarded the growth of mulberry plants as well as the progress of silkworms. As usual the selection of indigenous *nistari* and *chotopolu* was continued.

Demonstration and propaganda were continued in the districts of Malda and Murshidabad and practical demonstrations were given in 27 villages. Preventive measures were also undertaken by the demonstration staff for dealing with outbreaks of disease among silkworms. The silk produced by the 5-basin Mysore reeling plant installed at the Piasburi Central Nursery has proved to be better than the silk produced by the ordinary *ghai* and this silk yarn commanded a higher price.

8. *Acknowledgment.*—The Governor acting with the Minister is pleased to acknowledge the work done by Dr. Hector: the names of the departmental officers mentioned in the report have been noted. His thanks are also due to the numerous officials and non-officials who helped the department in various ways as well as to the members of the Provincial Agricultural Research Committee and other committees and boards attached to the department for the services rendered by them.

FINANCE DEPARTMENT.

Audit.

CALCUTTA, THE 9TH MARCH 1934.

RESOLUTION—No. 1617F.

In Government of India, Finance Department, letter No. F. 711-R. 11, dated the 21st March 1930, forwarded with this department memorandum No. 2339-2428F., dated the 28th May 1930, attention was drawn to certain principles which have been laid down for the regulation of the grant of temporary advances from the General Provident Fund.

2. The Government of Bengal have now decided that an advance may be granted to any subscriber who is able to satisfy the sanctioning authority that he or a relative has suffered financial loss as a result of the recent earthquake in Northern India and is in real need of financial assistance, and that the subcriber's pecuniary circumstances are such that his General Provident Fund balance is the only source from which he can find the means to repair the damage or render assistance.

This concession is admissible whether the relative is a member of the subscriber's "family," as defined in General Provident Fund Rule 14, or not, and will remain in force until the end of September 1934.

3. With reference to the penultimate sentence in paragraph 1—advances—of this resolution No1555F., dated the 22nd March 1932, it has been decided that in the circumstances described in paragraph 2 above, advances may also be granted to the subscribers to contributory or special Provident Funds.

Applications for advances in this connection should be carefully scrutinised so as to prevent, as far as possible, any abuse of the concession.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill* was introduced in the Legislative Assembly on the 8th February, 1934 :—

L. A. BILL NO. 9 OF 1934.

A Bill further to amend the Indian Stamp Act, 1899.

WHEREAS it is expedient further to amend the Indian Stamp Act, 1899, so as to make a promissory note, not duly stamped, admissible in evidence on payment of proper stamp duty and penalty ; It is hereby enacted as follows :— II of 1899.

Short title.

1. This Act may be called the Indian Stamp (Amendment) Act, 193

Amendment of section 35, Act II of 1899.

2. In part (*a*) of the proviso to section 35 of the Indian Stamp Act, 1899 (hereinafter referred to as the said Act), the words " or promissory note " shall be deleted. I of 1899.

Amendment of section 41, Act II of 1899.

3. In section 41 of the said Act, the words " or promissory note " shall be deleted.

---

*The Governor General has been pleased to accord the sanction required by section 67 (2) of the Government of India Act.

STATEMENT OF OBJECTS AND REASONS.

Owing to its simplicity of form and the nominal stamp duty, the loan on promissory note has become greatly popular in the country. Even in remote villages simple money loans are largely transacted by execution of promissory notes and receipts attached thereto. But being ignorant of the sliding scale of stamp duty on promissory notes, many innocent creditors in villages advance large sums of money on insufficiently stamped promissory notes. Section 35 of the Indian Stamp Act, II of 1899, makes such promissory notes inadmissible in evidence. It does not provide for its admissibility on payment of the proper stamp duty and penalty as it does in the case of other kinds of instruments. In such cases suits were filed on the original loan and the enclosed receipts were produced as evidence of the same. But a Full Bench of the Allahabad High Court has recently held in Nazir Khan *vs.* Ram Mohan Lal reported in (1931) 53, A. 114, that it is not open to a party who has lent money on terms recorded in a promissory note, which turns out to be inadmissible in evidence for want of proper stamp duty to recover his money by proving orally the terms of the contract in the teeth of the provisions of section 91 of the Indian Evidence Act, 1872. As regards suits based on receipts, executed simultaneously with such promissory notes, it has been held by the same High Court, in a more recent case, that no such suit can be brought on the basis of the receipt as it does not contain any promise to pay. Chaudhuri Karan Singh *vs.* Lal Singh (1933), A. 109 (A. I. R.). There is a conflict of opinion in the Calcutta High Court, but the above view prevails in Madras and Lahore. This point came up before a Division Bench of the Patna High Court in Dhanesar Sahu *vs.* Ram Rupgar (1928), 7, Patna 845, when one of the Judges expressed a contrary view, but his other colleague expressed doubts. A Full Bench of the Oudh Chief Court, in 1932, O/235 F. B. (A. I. R.) has strongly dissented from the above Allahabad Full Bench view and has held that parol evidence is admissible to prove the factum of the loan. This state of the law has caused considerable hardship to many creditors who have lost large sums of money in these hard times on account of their ignorance to pay an anna or two of the stamp duty. To get over this difficulty suits will now be filed on the allegation that parol debt was advanced a few months before, and on the expiry of the date fixed for payment, the promissory note and the receipt were executed in acknowledgment of the said debt. This will encourage much perjury and a good deal of the valuable public time of the courts would be lost in recording additional evidence without causing any addition to the Government revenue. The proposed amendment will relieve many creditors, save the time of the courts from recording much perjured evidence and add to the Government revenue in the shape of stamp duty and penalty.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill* was introduced in the Legislative Assembly on the 8th February, 1934 :—

L. A. BILL NO 11 OF 1934.

A Bill to amend the Indian States (Protection against Disaffection) Act, 1922, for a certain purpose.

WHEREAS it is expedient to amend the Indian States (Protection against Disaffection) Act, 1922, for the purpose hereinafter appearing; It is hereby enacted as follows :—

Short title.

1. This Act may be called the Indian States (Protection against Disaffection) Amendment Act, 193 .

Amendment of section 3.

2. After sub-section (*2*) of section 3 of the Indian States (Protection against Disaffection) Act, 1922, the following sub-section shall be inserted, namely :—

"(*3*) Every person accused of committing an offence under this section shall be prosecuted and tried in a Court of law in the town or district where such publications were printed and in every case the appeal shall lie to a High Court of Judicature."

* The Governor General has been pleased to accord the sanction required by section 67 (2) of the Government of India Act.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to amend the Indian States (Protection against Disaffection) Act, 1922, so as to make it clear that the prosecution of an offence committed under the Act can only take place in the town or district where such publications were first printed or where the editor or author of a newspaper or book or document usually resides. A journalist usually resides at the place where his newspaper is printed. Cases have occurred in the past when powerful interests have started the prosecution of an editor in a place where the offending document has been sold, thereby causing undue hardship for an editor or author to defend his case. At the time when the Indian States (Protection against Disaffection) Act, 1922, was enacted, the Government gave assurance that in every case of prosecution the defendant will have the right of appeal to a High Court. The latter part of sub-section (*3*), if passed, will legalise the intentions of the Government so definitely expressed.

STATEMENT OF OBJECTS AND REASONS.

By the Cotton Textile Industry (Protection) Act, 1930, the Indian industry was given a temporary measure of protection which will cease to have effect on 31st March, 1934. In accordance with the undertaking given when the Act was passed, the claims of the industry to substantive protection have been examined by a Tariff Board. The Tariff Board has found that the Indian cotton textile industry has established a claim to substantive protection, but the Government of India, while accepting this conclusion, have found it necessary to review the measures of protection recommended by the Tariff Board in the light of events subsequent to the submission of its Report. The denunciation of the Indo-Japanese Trade Convention and the subsequent conclusion of a new trade agreement with Japan together with the unofficial agreement between representatives of the Indian and United Kingdom textile industries have introduced entirely new factors into the situation. The present Bill gives statutory effect to the aforementioned agreements which the Government of India accept as a satisfactory basis for a protective scheme subject to any readjustment which may be found necessary on the expiry of these agreements. The opportunity has also been taken of incorporating into the Bill the decisions of the Government of India on the recommendations of the Tariff Board appointed to investigate the claims of the sericultural industry to protection

NOTES ON CLAUSES.

Clause 2.—The nature of the amendments set out in the Schedule is the subject of a separate explanatory memorandum.

Clause 3.—The object of this clause is to avoid complication of the tariff by exempting from surcharge all items which have been made dutiable at rates other than the general revenue rate of 15 per cent. *ad valorem.*

Clause 4.—This clause prescribes a period of five years for the protective scheme. It does not follow that the rates of duty now imposed are incapable of alteration within this period. On the contrary, during the currency of the scheme two occasions will certainly arise in which a reconsideration of duties will be necessary. In the first place, the Indo-Japanese agreement in respect of cotton piece-goods will terminate on 31st March, 1937, and it will be necessary, whether a fresh agreement has been concluded or not, to determine what level of duties will be appropriate thereafter. In the second place, it is of the essence of the agreement between the Bombay Millowners Association and the Lancashire Textile Delegation that, should it be possible within the currency of the agreement, *i.e.*, in the period ending 31st December 1935, to remove the general surcharge imposed by the Indian Finance (Supplementary and Extending) Act, 1931, the duties on cotton piece-goods of British manufacture will be reduced to a basic rate of 20 per cent. *ad valorem* or (in the case of plain greys) 3½ annas per lb. Furthermore on the expiry of the period of the agreement the adequacy of that basic rate will be the subject of investigation with a view to its revision if necessary.

3. **General.**—The total capital expenditure of the department during the year 1932-33 was Rs. 13,24,967 after deducting receipts and recoveries on capital account amounting to Rs. 26,873.

The only important new projects under construction during the year were (1) the Damodar Irrigation Canal, (2) the Bakreswar Irrigation Project and (3) construction of locks and sluices on the Madaripur Bil Route. Construction on the Damodar Canal commenced in 1926-27, and the project has been designed to irrigate about 200,000 acres of land in the districts of Burdwan and Hooghly. The work of construction continued throughout the year, and when the local cultivators applied for free irrigation on the occasion of a serious drought during the monsoon, which threatened a failure of crops, the canal was partially opened with effect from September 7th, 1932, with the result that the harvest was saved throughout an area comprising 25,500 acres. The completed canal was formally opened by His Excellency the Governor on 2nd September 1933, and it is hoped that it will be of great benefit to the inhabitants of the irrigated area The Bakreswar Irrigation Scheme, which was taken up in 1927, was also in progress, and the main canal and six of its distributaries, comprising a total length of nearly 21 miles, were in operation during the year. The total area irrigated was 5,860 acres. On the Madaripur Bil Route and the Lower Kumar river the construction of locks and sluices was completed, and they were in operation during the year. Their effect upon the silting up of the Lower Kumar river has not yet been fully determined, and is being carefully watched.

The expenditure on revenue account during the year amounted to Rs. 24,40,231, of which Rs. 2,27,725 were spent on irrigation works proper, the principal items being the Midnapore and Eden Canals. The expenditure on the Midnapore Canal was Rs. 1,56,012 which included Rs 37,110 for maintenance and repairs and Rs. 1,15,571 for overhead charges; while the expenditure on the Eden Canal totalled Rs. 57,864. The rest of the expenditure was on navigation, embankment and drainage works. The expenditure on navigation was mainly for upkeep of 5 suction dredgers and for the maintenance of the steamer and boat routes from Calcutta to Eastern Bengal and Assam, including the reconstruction of the bridges over the Calcutta Canals and Tolly's Nullah, to the cost of which the Calcutta Corporation contributed in certain cases. The expenditure on the Calcutta and Eastern Canals was Rs. 5,05,868 as compared with Rs. 4,56,972 in 1931-32. Reconstruction work was carried out to the Beliaghata, Narkeldanga, Chitpur, Manicktola, Alipore and Ultadanga bridges, and the increase in the working expenses was due to the reconstruction of the Nowpara bridge, special silt-clearance of Tolly's Nullah, and repairs to the lock gates at Chitpur. The expenditure on the Hijili Tidal Canal, the Sunderbans Steamer Route, and the Madaripore Bil Route was Rs. 39,469, Rs. 1,02,176 and Rs. 2,41,919, respectively, as compared with Rs. 34,709, Rs. 1,80,610 and Rs. 2,55,808 in 1931-32, while the cost of upkeep of the dredgers amounted to about Rs. 2,55,000. The increased expenditure on the Hijili Tidal Canal was caused by extra repairs to locks and by silt-clearance, but the working expenses were again reduced in the case of both the Sunderbans Steamer Route and the Madaripur Bil Route. The revenue receipts of the Hijili Canal fell by Rs. 10,669, and that of the Madaripur Bil Route by Rs. 40,211. In the former case the economic depression and the low price of paddy were responsible for the reduction In the latter the governing factors were the depression in trade and the silting up of the upper reach of the Lower Kumar river, which resulted in an early diversion of steamer traffic to the Barisal route.

The financial result of the year as compared with that for the previous year is that while the receipts from works decreased by Rs. 1,47,467 owing to economic depression the reduction in working expenses amounted to Rs. 5,97,403 owing partly to 10 per cent. reduction in salaries.

In the report for the year 1930-31 a list was given of a number of major schemes administratively approved and awaiting funds for execution. As owing to financial stringency it will not be possible to undertake any of these schemes for some years to come, the present policy of Government has been, as stated in the report for 1931-32, to give attention mainly to small local schemes which may result in considerable benefit at a small cost, such as schemes for making small cuts from live

rivers in order to introduce a supply of silt-laden water into channels of rivers which have deteriorated. In the year under report a scheme for a cut from the Mathabhanga to the Nabaganga river was carried out with the assistance of Government by the District Board of Nadia. Two other schemes of the same kind, viz., Hat Boalia Cut and Joynagar Cut, are under examination.

With a view to improve the health and sanitation of certain malaria-stricken areas in Western Bengal, the question of introducing flood irrigation into those areas was examined in co-ordination with the Public Health Department. With this object in view the areas in Narayangarh and Pingla thanas of the Midnapore district comprising 3,500 acres were flushed by water from the Midnapore Canal free of charge during the flood season of 1932. The effect of the flushing was very beneficial and was greatly appreciated by the public.

This department maintained about 1,242 miles of embankments during the year under review. The policy of gradually abandoning protective embankments where possible with a view to the reclamation of swamps and low-lying areas by the beneficial spill of silt-laden water from rivers was continued and a length of 2 miles and 4,075 feet of embankment was abandoned during the year. The total amount spent on maintenance of embankments and drainage works, such as Magrahat Drainage project, was Rs. 7,85,882 as against Rs. 7,98,544 in the previous year.

This department has also to deal with protection of towns from river erosion The revetment constructed for the protection of Serajganj was damaged by the great flood on the Jamuna in 1931 and the work of repairing it was completed during the year under review at a cost of Rs. 25,727 against the sanctioned estimate of Rs. 25,300

4. **The Damodar Canal Project.**—The total capital expenditure to end of the year 1932-33 (direct and indirect) was Rs. 94,16,674 against Rs. 92,93,307, the amount of the revised estimate submitted to the Government of India for sanction of the Secretary of State during the year under review. The Government of India have since asked for an up-to-date estimate of financial aspects of the scheme, etc., which is now under preparation by the Chief Engineer.

5. **Bakreswar Irrigation Scheme (Birbhum).**—The capital expenditure to end of the year (direct and indirect) amounted to Rs. 7,11,038 against the estimated cost of Rs. 4,90,596. A revised estimate is under preparation.

The gross revenue and working expenses were Rs. 10,151 and Rs. 5,499, respectively. The area irrigated was 5,860 acres.

6. **The Midnapore Canal.**—The Canal consists of two weirs at Midnapore and Panskura, 65⅓ miles of main and branch canals used both for irrigation and navigation purposes and 284·97 miles of distribution and village channels. No capital expenditure was incurred on the canal during the year. The area irrigated was 28,136 acres against 38,967 acres in the previous year. The receipts and working expenses were Rs. 1,12,940 and Rs. 1,56,012, respectively, the result being a deficit of Rs. 42,072 against the deficit of Rs. 24,182 in the previous year. The diminution in the area irrigated was due to the decrease in demand on account of a heavy fall in the price of paddy and a fairly well distributed rainfall during the year. The worse economic condition of the people owing to abnormally low price of paddy and other agricultural produce is one of the main causes for the short realisation of revenue from this canal. The civil disobedience movement was also responsible to some extent for the reduced revenue.

7. **The Grand Trunk Canal.**—The project has been held in abeyance. The capital expenditure incurred on the upkeep of buildings on the acquired land and on petty establishment and tools and plant amounted to Rs. 2,779, while receipts and recoveries amounted to Rs. 10,045. The result was a capital expenditure of Rs. −7,266.

8. **Hijili Tidal Canal.**—This canal with the Terapakia Pass Khal, Palaboni Khal and the khal leading to the Gewankhali lock entrance constitutes a navigation canal 49¾ miles in length. No capital expenditure was incurred on the canal during the year. The receipts and working expenses amounted to Rs. 61,016 and Rs. 39,469, respectively, the result being a net revenue of Rs. 21,547 as against Rs. 36,976 in the previous year. The economic conditions, the low price of paddy and consequent reduced traffic account for the reduction in revenue.

9. **The Calcutta and Eastern Canals.**—These consist of natural and artificial navigation channels about 834 miles long for maintaining communication between Calcutta and Eastern Bengal. There was no capital expenditure on this system during the year. The receipts and working expenses amounted to Rs. 3,90,886 and Rs. 5,05,868, respectively, the result being a deficit of Rs. 1,14,982 as against the deficit of Rs. 51,602 in the preceding year. The larger deficit during the year is due to less receipts and heavier working expenses. Further decline in receipts is due to the reduction in the transport of merchandise in consequence of the depressed condition of the market as also to the silting up of the Bhangore Khal to the west of Bhangore which discouraged the use of this khal by large boats. The cause of the increased expenditure has been explained in paragraph 3.

10. **The Sunderbans Steamer Route.**—This route is about 350 miles long. There was no capital expenditure on the route during the year. The

gross revenue and working expenses amounted to Rs. 57,651 and Rs. 1,02,176, the result being a deficit of Rs. 44,525 as against the deficit of Rs. 1,22,509 in the previous year.

The fall in revenue is due to depression in trade and consequent reduced movement of merchandise.

11. **The Madaripur Bil Route** which connects the Madhumati and Kumar rivers in the Faridpur district is about 38 miles in length. A capital expenditure of Rs. 4,718 was incurred during the year on the construction of locks and sluices on the route and on the Lower Kumar river. The revenue receipts and working expenses amounted to Rs. 1,95,715 and Rs. 2,41,919, the result being a deficit of Rs. 46,204 as against the deficit of Rs. 19,882 in the preceding year. Reasons for the fall in revenue have been given in paragraph 3.

12. **Dredger "Foyers."**—The accounts of this dredger have been separated from those of the Sundarbans Steamer Route from the year 1931-32. The net capital value of this dredger is nil. The dredger was employed on dredging the Lower Kumar river from 10th to 23rd October 1932 and the Attarabanka river from the 24th October to the 11th November 1932. The hire charges realised amounting to Rs. 14,310 were credited to Revenue Account. The working expenses amounted to Rs. 67,797.

13. **Dredger "Alexandra."**—In the year under review the accounts of this dredger have been separated from those of the Sunderbans Steamer Route. The total capital outlay to the end of the year amounted to Rs. 2,01,524. The dredger was employed on dredging the Lower Kumar river from the 9th to the 27th January 1933. The amount of hire charges realised during the year was Rs. 5,738, of which Rs. 2,147 was credited to the capital account and the balance to the revenue account. The working expenses exclusive of hire charges amounted to Rs. 91,465.

14. **Dredger "Ronaldshay."**—The accounts of this dredger which were separated from those of the Grand Trunk Canal are being treated as "unproductive." The total capital outlay to the end of the year amounted to Rs. 49,40,075. Five shore pipes of this dredger were permanently transferred to the dredger "Foyers" and their present value, viz., Rs. 1,575, together with a further sum of Rs. 80 (being the sale-proceeds of some other pipes) were credited to Capital Account of the dredger. The dredger remained idle throughout the year and therefore earned nothing. The working expenses amounted to Rs. 38,877.

15. **Dredger "Cowley."**—The accounts of this dredger and of the dredger "Burdwan" formerly booked together were split up and recorded separately from the year 1931-32. The total capital outlay to the end of the year amounted to Rs. 46,90,592. The dredger remained idle throughout the year and earned nothing. The credit of Rs. 9,000 to Capital Account represents the present market value of six pontoons permanently transferred to the dredger "Foyers." The working expenses amounted to Rs. 48,775.

16. **Dredger "Burdwan."**—The total capital outlay to the end of the year amounted to Rs. 13,93,173. The dredger remained idle throughout the year and earned nothing. The working expenses amounted to Rs. 8,092.

17. **Minor Irrigation, Navigation, Embankment and Drainage works for which neither Capital nor Revenue Accounts are kept.**—These include the Eden Canal, Amjore Weir, Salbund Weir, Orissa Coast Canal, Nadia Rivers, Magrahat Drainage Scheme, Government Embankments, Surveys and other works enumerated in paragraph 3. The total working expenses on these works during the year amounted to Rs. 11,34,282 against Rs. 11,32,236 in the previous year.

18. **Surveys.**—Surveys and investigations were continued during the year in connection with irrigation and drainage problems in several districts of the Presidency. Among these (1) detailed survey of the Subhankar Danra Project in Bankura, (2) Survey of Ajoy Canal Scheme, (3) Gauge and discharge observations of important rivers and streams in Bankura and Birbhum, (4) Gauge and discharge observations of the Dolong river in Midnapore, (5) Survey of the Messanjore Reservoir Scheme, (6) Survey of the proposed pick up weir site

below the junction of the Gandeswari and Dwarkeswar rivers in Bankura, and (7) Surveys and investigations in connection with the proposal for opening a channel from Bhorasango to Peshkarhat in Chittagong are important.

19 **General economic condition.**—The rainfall during the year was normal. There was practically no flood in the rivers under the jurisdiction of this department. The agricultural areas were drained satisfactorily and the outturn of crops was good. The general economic conditions of the country were, however, unfavourable on account of the slump in trade and the fall of prices in paddy and other commodities, thus entailing a decrease in receipts from irrigation and navigation works.

MEMORANDUM ON THE BENGAL SERVICES (REVISION OF PAY) RULES, 1934, AND MATTERS CONNECTED THEREWITH.

No. 1999F.—28th March 1934

In 1931 the Bengal Government decided that all pays subject to their rule-making control should be examined with a view to their reduction, and, as an *ad interim* measure, passed what are generally known as "the 15 per cent. cut orders". These laid down, with certain exceptions, that all new appointments made after the 21st July 1931 should be made on a provisional basis, and should carry pay at the current rates less 15 per cent. The term "new appointments" covered not merely appointments of new recruits to Government service, but also promotions to higher duties of persons already in Government service.

2 With the assistance of the Retrenchment Committee's recommendations on this subject, the examination contemplated in 1931 has now been made, and revised rates of pay for permanent posts, taking effect from the 1st April 1934 (i.e., for service after the 31st March 1934), have been promulgated. They will be found in the Bengal Services (Revision of Pay) Rules, 1934, published with Finance Department Notification No. 2000F., dated 28th March 1934, in the "Calcutta Gazette" of the 29th March 1934.

3 The revised rates were fixed on the following plan :—

(*a*) In 1931, pays of Rs. 80 or less were exempted from the 15 per cent. cut. It was decided to leave them similarly untouched in this revision, but to replace annual increments generally by biennial increments of larger amounts, and slightly to lengthen scales that were unreasonably short.

(*b*) For the purposes of the revision, pays above Rs. 80 were treated in two compartments. Into the lower were put all scales up to and including those of the regular provincial services; that is, all ranges of existing pay up to a maximum of about Rs. 1,000. These were then arranged as nearly as possible in descending order of the *average* of each scale, and there was applied to them, scale by scale, a diminishing series of percentage cuts, the scales with the highest averages being most reduced, and *vice versa*. To give examples: the revised rates for the Bengal Civil Service (Executive) involve a cut of about 18·5 per cent. on the average of the existing rates for that service, and those for Vernacular Teachers in High Schools a cut of about 4·8 per cent.

(*c*) Into the higher compartment were put the higher services recently created to replace the Imperial Services recruitment to which has been stopped, and posts in general whose pay rises above Rs. 1,000. A reasonable standard of reduction for this compartment was found in the proposal of the Retrenchment Committee that the main time-scale for the higher provincial services should be fixed at Rs. 300—1,000. This standard was adopted, and it was decided to adjust the pays of other posts in the compartment as far as possible with reference to it.

(*d*) No selection grades were provided in any of the revised scales for services proper. The Retrenchment Committee recommended their abolition, and Government decided that they were unnecessary. Existing selection grades were, however, taken into account when calculating the average of existing time-scales.

4. In accordance with the intention in 1931, the revised rates have been made to apply to all persons first appointed to Government service, or reappointed to Government service, after the 21st July 1931 With regard to persons who were appointed before the 21st July 1931, Government decided to make a departure from what was intended in 1931 : they decided that the revised rates, instead of applying to all promotions to any higher duty, should, in the case of Government servants who held a substantive appointment on the 21st July 1931, apply only when the

officer is promoted to a service proper (*e.g.*, promoted from the Bengal Junior Civil Service to the Bengal Civil Service) or to a post outside the ordinary line of his service. In this respect the rules imposing the revised rates are more liberal than the orders imposing the 15 per cent. cut. Executive instructions will shortly be issued to controlling officers explaining more fully what is meant by "promotion outside the ordinary line of an officer's service".

5. The Rules contain some special provisions regarding the calculation of initial pay of officers passing over from the old rates *minus* 15 per cent. to the revised scales of pay. They provide that in such cases the initial pay may be calculated either—

(*a*) on the actual pay which the officer last drew in the post under the 15 per cent. cut orders, or

(*b*) on the pay which he would have been drawing in the revised scale on the occasion of the calculation, had that scale been in force from the 22nd July 1931,

whichever calculation is more favourable to the officer. In the case of persons recruited after the 21st July 1931, however, they provide that, if method (*a*) gives a higher pay than method (*b*), then the difference shall be absorbed in future increments, so that eventually the officer will be drawing no more than the pay intended for an officer of his seniority.

6. It was decided that the emergency cut of 5 per cent., provision for whose continuance for a further twelve months will be made in a separate set of rules called the Bengal Services (Emergency Reduction of Pay) Rules, 1934, should not be applied to officers drawing pay at the revised rates, provided that the pay drawn in accordance with those rates is less than the pay that would have been drawn under the old scales of pay by 5 per cent. or more. This decision (which will be carried out in the rules just mentioned) does not mean that the revised rates will be increased when the emergency cut of 5 per cent. is removed; nor does it mean that officers drawing pay under the revised rates will be exempted if circumstances in the future should compel the imposition of an emergency cut exceeding 5 per cent.

7. Wherever a revised rate of pay is prescribed for a post, the cut of 15 per cent. prescribed in the 15 per cent. cut orders will cease to apply to that post with effect from the 1st April 1934. In respect of service after the 31st March 1934, occupants of such posts who may have been drawing pay at the old rates less 15 per cent. will draw pay as follows:—

(*a*) if the Rules make them liable to draw pay at the revised rates, they will draw pay at the revised rates calculated in the manner prescribed by the Rules;

(*b*) if the Rules do not make them liable to draw pay at the revised rates, they will (subject to the emergency cut of 5 per cent.) draw pay in the old scales at the stage which they would have reached, and draw increments on the dates on which increments would have accrued, had the 15 per cent. cut orders not been issued.

The embargo on confirmations contained in the 15 per cent. cut orders will also cease to apply in such cases. This means that persons who have been employed in vacant permanent posts in a provisional capacity may now, if considered fit for confirmation, be confirmed with effect from the date on which the posts which they are holding fell vacant, or from the date of their appointment to those posts, whichever is later. No adjustments, however, of pay or leave-salary will be allowed to any officer in respect of periods prior to the 1st of April 1934 during which he may have been subject to the 15 per cent. cut orders.

8. For the avoidance of mistakes, it has been arranged with the Accountant-General, Bengal, that he will check in advance all calculations of the first pay proposed to be drawn under the Bengal Services (Revision of Pay) Rules by persons already in service on the 31st March 1934. No such person may therefore draw pay on the basis of those Rules until he has been authorised to do so by the Accountant-General. Pending receipt of the Accountant-General's authorisation, pay should be drawn at the rate applicable to the month of March 1934. When the Accountant-General's authorisation is received,

supplementary bills may be presented for the difference, if any, between the pay actually drawn for service after the 31st March 1934 and the pay authorised for the same period by the Accountant-General. The Accountant-General will shortly issue detailed instructions in the matter.

9. In a number of cases the fixing of revised rates is still under examination. Until decisions are reached, the 15 per cent. cut orders will continue to apply to such cases. As soon as decisions are reached, they will be promulgated by amendments of the Rules, and will take effect retrospectively from the 1st April 1934.

In the case of certain headships of departments, however, which are likely to be filled for some time to come by members of all-India services (whose pay is not determinable by the local Government) it has been decided not to fix the revised rates at present. They will be fixed in due course, and will then be promulgated by amendments of the Bengal Services (Revision of Pay) Rules with retrospective effect as from the 1st April 1934.

10. The fixing of revised pays for temporary posts is a separate matter which will be taken up and disposed of as early as possible. Meantime the 15 per cent. cut orders will continue to apply to temporary posts.

11. A number of other questions affecting conditions of service are under consideration. These include revision of cadres, revision of leave rules and revision of pension rules. The new leave and pension rules, when made, will apply to all persons first appointed, or reappointed, to Government service after the 21st July 1931. Whether any of them should apply to any Government servants appointed before that date is a question that has not yet been decided.

NOTIFICATION.

No. 2000F.—28th March 1934.—In exercise of the powers conferred by rules 41, 42 and 44 of the Civil Services (Classification, Control and Appeal) Rules, the Governor in Council and acting with his Ministers hereby makes the following rules:—

1. These rules may be called the Bengal Services (Revision of Pay) Rules, 1934.

2. With effect from the 1st April 1934, the *ad interim* orders contained in Finance Department resolution No. 3219F., dated the 7th August 1931, forbidding new substantive appointments to, and reducing the pay of persons newly appointed to, certain services and posts, shall cease to apply to the services and posts included in Schedule I and to the pay other than special pay of any of them; but shall continue to apply to the special pay of any of them unless an amount of special pay is mentioned in Schedule I.

3. With effect from the 1st April 1934, the services and posts included in Schedule I shall carry revised rates of pay (hereinafter called "the revised rates") as shown therein.

4. The revised rates shall apply to all occupants of the services and posts against which they appear in Schedule I subject only to the exceptions provided in rule 5.

5. The following occupants of services and posts included in Schedule I shall be excepted from the application of the revised rates to the extent indicated, and while so excepted shall be entitled to draw pay at the rates hitherto in force, calculated, save as regards special pay, as if the reduction imposed by the orders contained in Finance Department resolution No. 3219F., dated the 7th August 1931, had not been imposed:—

(*a*) any person who was in Government service on the 21st July 1931 and held on that date a lien on a permanent post or would have held such a lien had the lien not been suspended:

Provided that—

(*1*) if after the 21st July 1931 there has been or hereafter occurs a breach in his service, this exception shall cease to operate,

(*2*) if he has been after the 21st July 1931 or is hereafter appointed, or re-appointed after duty in another service or post,

(*i*) to any of the services mentioned in Schedule II, or

(*ii*) to any post not included in Schedule II which is outside the ordinary line of his service;

such service or post not being a service or post on which he held a lien or a suspended lien on 21st July 1931, this exception shall cease to operate for so long as he holds appointment in such service or post.

Note.—If an officer was officiating in a service in Schedule II or in a post outside the ordinary line of his service on the 21st July 1931 and, save for periods of leave or for periods of officiating service in another service or post on the same time-scale or in a still higher service or post, has officiated continuously in that service or post, his confirmation, or re-appointment to officiate, in that service or post is not an appointment to it for the purposes of this clause.

(*b*) any other person who was in service on 21st July 1931:

Provided that this exception shall cease to operate if after the 21st July 1931—

(*1*) there has been or hereafter occurs a breach in his service;

(*2*) he has been or is hereafter appointed from the post which he held on the 21st July 1931 to a post not on the same time-scale as that post.

6. A person who either—

(*1*) was a probationer on the 21st July 1931, or

(*2*) joined after the 21st July 1931 a permanent post a letter of appointment to which in a substantive capacity or as a probationer was issued to him before the 21st July 1931,

shall be deemed for the purposes of sub-clause (*a*) of rule 5 to have been in Government service on the 21st July 1931 with a lien on a permanent post; and a person who joined a non-permanent post after the 21st July 1931 a letter of appointment to which was issued to him before that date shall be deemed for the purposes of sub-clause (*b*) of rule 5 to have been a person in Government service on the 21st July 1931.

7. For the purposes of sub-clause (*a*) (*2*) (*ii*) of rule 5, the decision of Government on any question whether a post is within or outside the ordinary line of a person's service shall be final.

8. When a person becomes liable to draw pay at the revised rates in respect of any post by reason of his being first appointed, or re-appointed, to Government service after the 21st July 1931, he shall draw initial pay at the rate which would have been admissible, and draw his increments, if any, thereafter on the dates on which he would have drawn them, had the revised rates (including any special provision in Schedule I relating to initial pay) been in force from the 22nd July 1931:

Provided that, if on the last occasion before the 1st April 1934 he has already actually drawn for duty in the post in question or in a post on the same time-scale a pay that is higher than the initial pay so calculated, he shall, if there has been no breach in his service meanwhile, be given a personal pay equal to the difference, subject to the condition that in no case may more than the maximum of the revised scale be drawn. Such personal pay shall be absorbed in future increments in the manner specified in Fundamental Rule 37.

9. When a person who was in Government service on the 21st July 1931 becomes liable to draw pay at the revised rates in respect of any post by reason of an appointment of the kind described in proviso (*2*) to sub-clause (*a*) of rule 5, or of the kind described in proviso (*2*) to sub-clause (*b*) of that rule, his initial pay shall be regulated in the manner specified in the Fundamental Rules:

Provided that, in respect of any duty in the post in question or in a post on the same time-scale performed between the 21st July 1931 and the 1st April 1934, he shall be deemed to have drawn on the last occasion of such duty either—

(*a*) the pay actually drawn by him, or

(*b*) the pay which he would have drawn had the revised rates (including any special provision in Schedule I relating to initial pay) been in force from the 21st July 1931,

whichever is more favourable to him.

10. The provisions of these rules regarding the application of the revised rates to persons already in service on the 31st March 1934 may in special cases, for reasons to be recorded in writing, be relaxed by the Local Government.

11. These rules concern the pay to be drawn in permanent posts after the 31st March 1934. Nothing in them is intended to affect the pay which any Government servant may draw in a temporary post after the 31st March 1934.
